### Display

*How can refrigerated self service display cabinets save time and boost profits?*

If you are looking to make it easier and more convenient for customers to select pre-packed snacks, food and drink products, then a multideck display cabinet could be just what you need. Refrigerated and heated multidecks are ideal for creating additional display space, enabling you to expand your menu, encouraging your customers to browse and choose products at their own pace.

Display cabinets are ideal for promoting special and seasonal offers and allow you to prepare for busy periods in advance. Perfect for show casing cooked meat, dairy, delicatessen, drinks, fruit, pastries, salads, sandwiches and wraps.

When purchasing a new multideck it is advisable to select the glass door option for energy saving and cooling efficiency. Working with Coreco we at Angel Refrigeration can offer a wide variety of display cabinet style, size, colour, finish and temperature options. Consider co-ordinating new equipment with your brand or existing equipment.

*The full range of Coreco Refrigerated Display cabinets can be found at [www.angelrefrigeration.co.uk/category/chilled-display/](http://www.angelrefrigeration.co.uk/category/chilled-display/)*
