

THE PRODUCTS *'ICONIC ICE'*

Scotsman

Ice and its shapes

Scotsman

Gourmet Supercube

Crystal clear, pure, hard and long lasting ice cubes. Individually formed by spraying water onto a super cooled horizontal evaporator. Its fast cooling action and slow dilution ensure stay drinks chilled for a long time without losing quality.

Available in four different cube sizes/weights to meet any requirement in terms of ease of use and quality results.

Dice Ice

Classic six sided ice cube. Its greater surface for heat exchange allows a fast chilling of all drinks. The 'softer' texture makes dice ice perfect for blended drinks. The vertical evaporator technology of this ice cube guarantees large ice production at lower operating costs.

Available in several different sizes, it is highly appreciated in QSR and coffee chain applications.

Nugget & Cubelet Ice

Compressed flake ice available in two different types: Nugget, regular micro-cubes and Cubelet, irregular chips. Nugget & Cubelet are suitable for multiple uses and are the fastest moving ice-type in QSR applications in the last few years. Excellent when used with carbonated drinks as well as smoothies and perfect for food presentation and display.

Long lasting, easy to use, high and fast displacement and hands-free dispensing: no wonder this type of ice is so successful!

Flake Ice

Ice in its most natural shape, it is made at a temperature just below zero degrees Celsius. Highly versatile and suitable for multiple applications; fish display counters, iced buffet display, food manufacturing, frozen drinks preparation as well as fast chilling of wine & champagne buckets.

It comes in two different variations: Flake with 25% residual water content and Super Flake with 15% residual water content.

Scale Ice

With less than 2% residual water content, it's very dry and it's the coldest form of ice. It's made from irregular fragments of ice with a variable thickness that can be adjusted between 1 to 2 mm. Ideal for industrial processes, for fish and sea-food display and perishable goods transportation, as well as to optimize dough temperatures in the bakery sector and food manufacturing.

Versatile, molds in to any shape, melts at a slow and regular rate to keep food at maximum freshness.

A top-class must: Gourmet ice makers

D 600 mm
H 840 mm / 930 mm with legs
Recommended water filter:
HF20-S
Voltage:
230v/50Hz/1

- Agion: the technology that makes products cleaner and longer lasting with built-in protection working 24/7 to resist the growth of microbes and the development of unpleasant odours.
- Clean alert: advises with a blinking light when it's time to clean the filter.
- Electronic control: ambient air and water temperatures may change throughout the years but your ice machines production will stay the same.
- Front access condenser air filter: a do-it-yourself cleaning operation that saves time and money and makes your ice machine live longer.
- Individual transparent solid cube: each single cube is a work of art: crystal clear and perfectly shaped, faithful to the Scotsman tradition.
- Scale accumulation preventing system: traps the ice machines No. 1 enemy in one place and makes it harmless.
- Ergonomic access to ice with sliding disappearing door: one-touch door lift, makes the operators life significantly easier.
- Built-in storage bin: allows most undercounter installations for easier fit-in solutions.
- EcoX: the AC EcoX versions use natural R290 Propane refrigerants.

The pure and simple: Nugget & Cubelet ice makers

Scotsman

Vertical ice evaporator

Nugget
1 g / Ø 11 mm / H 13 mm
Residual water content 8%

Cubelet
1 g / W 16 mm / D 15 x 7-8 mm
Residual water content 8%

MFN series: The universal ice - Nugget

- Agion: the technology that makes products cleaner and longer lasting with built-in protection working 24/7 to resist the growth of microbes and the development of unpleasant odours.
- Electronic control: ambient air and water temperatures may change throughout the year but your ice machines production will stay the same.
- External indicator lights: keep the ice machines operations under constant surveillance.
- Plug-and-work technology: starts off and constantly produces ice thanks to a no-cycle harvesting system.
- Water in / ice out concept (no cycles, zero water wastage): limits to almost zero excess energy, water and time wastage.
- Head only ice maker: requires a separate storage bin to store the ice produced.*

TC180 & AFC/EFC series

The chewable ice - Cubelet

TC S/L 180 AS

Ice type:
Cubelet
Condensing system:
Air cooled
Options:
Short range
Long range
Max daily production:
120 kg
Features:
180 mm between spout & drip tray
Touch free dispense model
Ice & water configuration

Storage bin capacity:
Short Range - 5 kg
Long Range - 9 kg
Dimensions - Short Range:
W 390 mm - D 600 mm - H 874 mm
Dimensions - Long Range:
W 390 mm - D 663 mm - H 874 mm
Recommended water filter:
HF20-S
Voltage:
230v/50Hz/1

TC S/L 180 ASM

Ice type:
Cubelet
Condensing system:
Air cooled
Options:
Short range
Long range
Max daily production:
120 kg
Features:
180 mm between spout & drip tray
Manual with two push buttons
Ice & water configuration

Storage bin capacity:
Short Range - 5 kg
Long Range - 9 kg
Dimensions - Short Range:
W 390 mm - D 600 mm - H 874 mm
Dimensions - Long Range:
W 390 mm - D 663 mm - H 874 mm
Recommended water filter:
HF20-S
Voltage:
230v/50Hz/1

TC S 180 EVO

Ice type:
Cubelet
Condensing system:
Air cooled
Options:
Short range
Max daily production:
120 kg
Features:
180 mm between spout & drip tray
No push buttons on front
Ice only configuration

Storage bin capacity:
Short Range - 5 kg
Dimensions:
W 390 mm
D 600 mm
H 874 mm
Recommended water filter:
HF20-S
Voltage:
230v/50Hz/1

Scotsman

Water dispensers

- Agion: the technology that makes products cleaner and longer lasting with built-in protection working 24/7 to resist the growth of microbes and the development of unpleasant odours.
- Appealing design: it can be smartly positioned in any situation, from luxury lounges to unconventional or traditional pubs, allowing customers to cool their drinks to their own taste, without any hygiene hazards.
- Display: appealing display. Push button activated or touch-free version.
- Large flow of ice in a small footprint. Simple serviceability.
- Extractable washable drip tray and anti-clog drain filter.

AFC/EFC series

- Agion: the technology that makes products cleaner and longer lasting with built-in protection working 24/7 to resist the growth of microbes and the development of unpleasant odours.
- Electronic control: ambient air and water temperatures may change throughout the year but your ice machines production will stay the same.
- Front access condenser air filter: a do-it-yourself cleaning operation that saves time and money and makes your ice machine live longer (AFC/EFC 134 only).
- PWD - Progressive Water Discharge: built in pump can pump excess residual water up to a distance of 15 meters. (EFC 134 only).
- Built-in storage bin: allows undercounter installations for easier fit-in solution.

AFC 80

Ice type:
Cubelet
Condensing system:
Air cooled
Water cooled
Max daily production:
79 kg

Storage bin capacity:
25 kg
Dimensions:
W 535 mm
D 620 mm
H 797 mm / 890 mm with legs
Recommended water filter:

230v/50Hz/1

- Agion: the technology that makes products cleaner and longer lasting with built-in protection working 24/7 to resist the growth of microbes and the development of unpleasant odours.
- Clean alert: advises with a blinking light when it's time to clean the filter.
- Electronic control: ambient air and water temperatures may change throughout the year but your ice machines production will stay the same.
- Front access condenser air filter: a do-it-yourself cleaning operation that saves time and money and makes your ice machine live longer.
- PWD - Progressive Water Discharge (only on EF series): built in pump can pump excess residual water up to a distance of 15 meters.
- Water in / ice out concept (no cycles, zero water wastage): limits to almost zero excess energy, water and time wastage.
- Ergonomic access to ice with sliding disappearing door: one-touch door lift, makes the operators life significantly easier.
- AF/EF series - built-in storage bin: allows most undercounter installations for easier fit-in solutions.

The tough guys: Scale ice makers

Scotsman

The drum

Scale Ice
Residual water content 2%

Horizontal drum

Scotsman

- Stainless steel horizontal evaporating drum: for a life-long working endurance.
- Floor standing compatible: delivers ice straight into carts, trolleys or ice boxes.
- Plug-and-work technology: starts off and constantly produces ice thanks to a no-cycle harvesting system.
- All water in / all ice out concept (no cycles, zero water wastage): limits to almost zero excess energy, water and time wastage.
- Compact configuration: includes evaporator, compressor and condensing units, and it is supplied without panels on the group (optional).

SB/NB & FOL series

Slope front bins. Insulated, inside finished with rounded corners, for daily turnover of ice. Easy to clean and maintain with removable gaskets. The reinforced hinges provide enhanced durability. The slope front makes access to ice as easy as possible.

From 129 kg to 478 kg storage capacity range. Compatible with any type of ice.

*SB/NB bins are manufactured by Scotsman Ice Systems. FOL bins are manufactured by Follett.

UBH series

Upright bins. First-in first-out concept provides a constantly fresh ice supply and high level of hygiene. Insulated, inside finished with rounded corners, ideal for operators with higher capacity demands for ice and longer stock periods. Sturdy enough to sustain even the largest ice makers. Front windows allow operators to always keep an eye on the product inside.

From 553 kg to 1068 kg storage capacity. Compatible with any type of ice.

SIS & ITS series

Upright bins with integral trolleys. First-in first-out concept provides a constantly fresh ice supply and high level of hygiene. 73 kg (SIS) or 110 Kg (ITS) capacity trolleys, insulated and top closed with lids, facilitate ice transportation. Ice falls down into trolleys gravitationally, eliminating the need of tire-some shoveling. Insulated, inside finished with rounded corners, for higher capacity demand for ice and longer period stock. Sturdy enough to sustain even the largest ice makers. Front windows allow operators to always keep an eye on the product inside.

From 210 kg to 759 kg storage capacity. Compatible with any type of ice.

*SIS series ice shuttle storage bins are manufactured by Scotsman Ice Systems, ITS series bins are manufactured by Follett.

Other products

HD 22
Storage Capacity:
Up to 59 kg
Dispensing unit to be combined
with a modular ice maker

Dimensions:
W 559 mm
D 850 mm
H 1351 mm
Voltage:
230v/50Hz/1

HD 30
Storage Capacity:
Up to 81 kg
Dispensing unit to be combined
with a modular ice maker

Dimensions:
W 762 mm
D 850 mm
H 1351 mm
Voltage:
230v/50Hz/1

DXG 35
Ice Type:
Gourmet cube
Cube size:
Medium cube
Condensing system:
Air cooled
Water cooled
Max daily production:
29 kg Medium cubes
1600 Medium cubes
Push button dispense

Storage bin capacity:
11 kg - 550 Medium cubes
Dimensions:
W 380 mm
D 515 mm
H 1606 mm / 1696 with legs
Recommended water filter:
HF20-S
Voltage:
230v/50Hz/1

ACM 25
Ice type:
Gourmet cube
Cube size:
Medium cube
Condensing system:
Air cooled
Max daily production:
10 kg Medium cubes
500 Medium cubes

Storage bin capacity:
3 kg - 150 Medium cubes
Dimensions:
W 380 mm
D 388 mm
H 640 mm
Voltage:
230v/50Hz/1

CRUSHMAN 360
Crushes all ice cubes
6 kg per minute (114 kg total/24hr)

Storage bin capacity:
3.5 kg - crushed ice
Dimensions:
W 245 mm
D 430 mm
H 490 mm
Voltage:
230v/50Hz/1

SCW 14 B - EVO
Pressure water cooler
Max cooled litres/hour:
50 litres

Dimensions:
W 404 mm
D 332 mm / 410 mm inc. pedal
H 1034 mm / 1275 mm with spout
Recommended water filter:
HF20-S
Voltage:
230v/50Hz/1

SCW 14 FP - EVO
Pressure water cooler
Max cooled litres/hour:
50 litres

Dimensions:
W 404 mm
D 332 mm / 410 mm inc. pedal
H 1034 mm / 1094 mm with spout
Recommended water filter:
HF20-S
Voltage:
230v/50Hz/1

SW 12 USPH
Pressure water cooler
Max cooled litres/hour:
50 litres

Dimensions:
W 401 mm
D 330 mm
H 875 mm / 934 mm with spout
Recommended water filter:
HF20-S
Voltage:
230v/50Hz/1

RBC Stand and Carts
RBC 200: 100 kg
RBC 300: 150 kg
RBC 500: 250 kg

EH Series ECLIPSE
Outdoor pre-charged refrigeration
system specific for Prodigy Plus
units. Designed to eliminate heat
and noise from service area of the
restaurant.

Water coolers & ice dispensers

Manual fill ice maker, ice crusher & carts
